OIL DISCOVERED IN HANCOCK CO.

Drillers For Newman Oil Co., Find a 50 Barrel Well on the Tom Brown Lease.

E. T. Franks, F. D. Ssricker, M. G. Buckner and Hiram Markberry went to Hawesville, Saturday afternoon to be present for the shooting of the oil well, 10 feet of oil sand having been discovered at 632 feet on Thursday. They were joined by Messrs. Hall and Bailey, a geologist and engineer, of Louisville, R. N. Hudson, of Louisville and Judge Newman and C. C. McAdams of Hawesville. There was a large crowd to watch the shooting of the well. The well was shot by an expert oil man from Petersburg, Ind., who used 40 quarts of nitro-glycerin.

It was some time before the debris could be cleared away that the findings might be bailed out and tested. The oil shot 125 feet into the air. Mr. Franks had a sample of the crude oil in the city yesterday, which was of much interest to local citizens. The holders do not know yet what the capacity will be but they are sanguine they have a splendid investment. The water will be cased off today and the pump will be put in late this evening or tomorrow morning. Contractor Thompson, of Gentryville, Ind., will put all hands to work and get the pumps busy as soon as possible. As soon as this well is producing another will be shot within a half mile of the present strike.—Owensboro Messenger.

CAMP KNOX VIRTUALLY ASSURED

Members of House Committee on Military Affairs See Advantage of Camp.

The completion and retention of Camp Knox virtually are assured, according to Congressman Charles F. Ogden, who arrived in Louisville for a vacation of ten days.

Mr. Ogden has conferred with all the members of the subcommittee of the House Committee on Military Affairs, which is investigating camp projects. The subcommittee, Mr. Ogden says, strongly favors the retention of the camp, and will report accordingly.

Whether the committee will visit Louisville is doubtful. Its members, according to Mr. Ogden, are so convinced of the advantages of completing the camp that they do not regard investigation on the ground as being necessary.—Elizabethtown News.

While abroad, Rev. Atkisson was in Switzerland and had a very significant trip up the Alpine mountains and in ascending passed through the clouds.

Rev Atkisson's sermons were altogether an inspiration and benediction to many, but there were comparatively few who made a public confession of their sins. There were a few additions to the Methodist church.

The attendance at the meetings was very good every evening, and on the last evening the special musical number, a solo by Mr. E. O. Harbin, of Nashville, was particularly enjoyed by the congregation.

Big Type Poland Chinas The Farmer's Hog.

I raised the pig that won first in the Pig Club last year. I have them good enough to win again this year, if properly fitted, and they are priced worth the money too. These are the kind of pigs that go out and make good and please their owners.

In a few weeks I will be weaning some of the best pigs that I have ever raised. See them before you buy elsewhere. Here you get the pig you buy; no drawing for choice, no lottery. I sell hogs and satisfaction.

The sows of my herd come from three of the best hog-producing states of the Union. I have never let money stand between me and the hog I wanted to improve my herd.

I also have two males large enough for service from a litter of ten, choice individuals, for sale now.

The pork barrel is the end of the hog. I have the kind that fill it. The sow pigs are all sold. Choice mail pigs for sale at weaning time.

VIC PILE, Harned, Ky.

THIS AND THAT.

A Good Crowd Present.

The moonlight picnic given by Jim DeJarnett in Stringtown on the Hill last Thursday night was well attended, and everybody present had a delightful time. Mutton and cold drinks filled up the displacement, and music started the feet to working. Ed Johnson was prompter and Jim Sanders and Lum McCoy took turn about at the fiddle. When Johnson announced, "all to your places," and the band started up "We'll Dance Tonight by the Light of the Silvery Moon," it was a beautiful sight to behold. The ladies danced like fairy queens and the gentlemen pranced like knights.

Old man Tom Ferry was there and as supple as a truss rod. When Tom unlimbered and got bet up he kept ahead of the fiddle and everybody else. He can do the double action back step to perfection.

Sam Ramsey, after practicing up for a week or so in his backer patch, did some fancy stunts such as the tobacco leaf glide and the corn tassle wiggle.

Harry Newsom is a dream when it comes to manipulating his feet. The only trouble he has with them is that one wants to waltz and the other wants to fox-trot.

Beavin Tucker is as graceful as a Texas jack rabbit coming through the broom sage with a full head of steam. He dances like he is suffering from auto-ataxia.

Lou Satterfield also moves like a Kansas cyclone when it's all hand around and shuffle to the left.

Steve Carman is also a good dancer. He can cut as many didoes as any of the youngsters.

Billy Brown says he writ the book of rules on dancing, but that he is too old to indulge in such playful past time.

Don't imagine the ring of a silver dollar will furnish you a passport through the pearly gates. There's sweeter music than the ring of a dollar.

A Nice Lot of Hogs.

Freeman & Brown shipped a nice lot of hogs Saturday to Louisville on the steamer Nashville. Among them was a 400 pound sow. Freddie purchased a half dozen palm leaf fans and went along to fan her so she could have a pleasant trip and not become overhot.

Don't try to carry the community on your shoulders. They may become a little stooped.

Was in Town Saturday.

Mayor Owen Whitehouse, of Balltown, was here Saturday. He says he has drawn up some new ordinances governing his little city, one of which is the curfew law. He says that if Norven Chancellor and Iven Bates happen to

be later than 9 o'clock going through town they will have to give the counter sign or go around. The people want a quiet town and Mayor Whitehouse is going to see that they don't play any "elephants" in his town.

Don't have a grouch. It makes you old and ugly and breeds contempt from those who smile occasionally.

From Lack of Space.

This uncouth, undignified junk of mine will henceforth cease from lack of space. I realize that my efforts have been very feeble at best, but I still have joy and sunshine in my heart and not vinegar. I have said things about my friends and they have taken it in the spirit that it was meant. As for my enemies, I care so little about them that they take up about as much room in my mind as a flea would in a piano box.

—Muffett.

How Much For Red Tape?

That appropriation of \$200,000,000, plus \$9,000,000 for federal aid in building roads, was one of the big items in the Post Office bill. One of the smaller ones was \$500,000—for twine.

WEDNESDAY SEPTEMBER 10, 1919

ABOUT ONE OUR OWN.

It is with pleasure that we reprint this praiseworthy notice clipped from the editorial column of the Frankfort State Journal concerning one of Breckinridge county's accomplished young women who is becoming very well known over the State for her journalistic talent.

"The Lexington Herald Says:

"The Herald staff welcomes back to its professional family Miss Eliza Piggott, of Irvington, graduate of the University of Kentucky with the class of '19 and former state editor of this paper. Miss Piggott resumed that desk with the current issue. Few young newspaper workers in the South have disclosed finer vision or more marked ability in the broad field of her choice that she has disclosed already, and fewer still have entered with more accurate conception of its demands and its possibilities.

"In accepting this position in Lexington Miss Piggott is probably the first woman in Kentucky and one of the first in the nation, to act in such a capacity typifying the advance being made by women in all lines of endeavor. Her success reflects credit on the Department of Journalism of the University of Kentucky from which she was graduated last June.

"The value of schools of journalism is now being appreciated throughout the country as a training ground for depth of thought, breadth of vision and a proper understanding of the great mission of the press. The American schools of journalism are being studied throughout Europe with care because of their eminent success. In some of the countries of the continent it was tried once and found unsuccessful. The chief fault there was insufficient emphasis of the practical phases of journalism.

"The schools of the United States were established with a view to correcting this deficiency. Although in its infancy the journalism department of Kentucky's first institution of learning has given proof of its worth and justification of the principles that are its foundation and promises a great service to the State."

The Bible should be read in every public school every morning. This would do more to check the development of wild-eyed, hair-brained bolshevistic socialism than any other one thing. The American nation was founded on the principles of the Bible. As literature alone it deserves to be taught; as a code of ethics and morals it stands alone. The American people should not calmly see the foundation principles of American life attacked by alien interests. Read the Bible in the public schools.

For twenty-five years, The Breckenridge News has been advocating good roads. They are now in sight. For fifteen years or more we have been advocating water-works for Cloverport; in another five years we believe we will have them too. It's a long time to work and to wait for a thing but the best things in life come through working and waiting.

In another year we hope to see a fine concrete bridge spanning Clover Creek in our city. But in the mean time something should be done by the town and county to repair some of the dangerous places in the old bridge. Too many school children cross the bridge daily to let it be in such an unsafe condition as it is now.

From the amount of traveling that has been going on this summer it looks like everybody is trying to see America at one time.

One thousand men at Okmulgee, Okla., have signed a pledge to wear old clothes for three months and as long thereafter as they will last or until prices are reduced.

Uncle Dudley in the Boston Globe says, "Now-a-days the rapidity with which a week's pay comes to look like thirty cents by Wednesday is appalling."

Cheerfulness is one of the principal ingredients in the composition of health, but few people really know it.

After all there is some advantage in living in a small town. We are not bothered with strikers.

And the fruit laden Autumn is upon us.

FARM AND STOCK

A. N. Skillman & Son were delivering their wheat Monday. They had 1,100 bushels.

S. C. Dowell, Irvington, went to Cannelton, with a car load of wheat.

We saw more good cattle in the fields along the railroad in Breckinridge county than on our entire trip to Boston. Crops are looking better too. We are behind that country in farm improvements and good roads but nothing else.

John Jarboe, who farmed with Gid Squires, near McQuady, was delivering his crop of tobacco to Beard Brothers, Monday. He had 7,000 lbs. Price \$13 round.

Mr. and Mrs. Sam Hendrickson, Chicago, were in Hardinsburg, Monday. They have sold their place on the pike to his brother, O. W. Hendrickson for \$2,500.

Miss Bertha Jarett, of Stephensport, was in Hardinsburg, Monday shopping.

J. H. Gardner has cut and housed his crop of Burley tobacco raised on his lot back of his store. He had 800 hills and has a standing offer of \$25 round for it. Mr. Gardner cultivated it with a garden plow and hoe.

Richard McAfee, of Stephensport, was here visiting relatives last week. He is 77 years old and has raised an acre of Burley tobacco this year. Says he did all the work with a garden plow and hoe. He thinks he will have 500 pounds. Wonderful work for a man of his age.

Gus A. Shellman has sold his corner lot in Hardinsburg to Dr. Lex for \$2,500. The lot is 56x100 feet and one of the best corners in Hardinsburg. He offered this lot before the Federal Highway was designated through Hardinsburg for \$1,500, and couldn't sell it. This is a fair sample of how real estate is climbing up not only in Hardinsburg, but all along the Highway. Dr. Lex will erect on this lot a fine store house.

A Farmer's Creed.

1. I believe in red clover, in white clover, in sweet clover, in cowpeas, in soy beans, and above all, I believe in alfalfa, the queen of forage plants.

2. I believe in a permanent agriculture, in a soil that grows richer rather than poorer from year to year.

3. I believe in 60 bushel corn and 40 bushel wheat and shall not be satisfied with less.

4. I believe that the only good weed is a dead weed, and that a clean farm is as important as a clean conscience.

5. I believe in the farm boy and the farm girl, the farmer's best crop and the future's best hope.

6. I believe in the farm woman, and will do all in my power to make her life easier and happier.

7. I believe in the country school that prepares for country life, and in a country church that teaches its people to love deeply and live honorably.

Bishop and Payne are painting the County bridges. They say they need painting badly. There are 20 bridges in the county and it will cost nearly \$200 each for material and work to paint them.

Thoughtfully planned, conveniently arranged, and carefully constructed buildings are as essential in the country as in the city.

Mr. Jonas Lyons has sold 150 acres of the Ditto farm recently purchased by him to Mr. Lawson for \$30 per acre. This tract is part of the hill land.

Mack Cashman has sold his store in Askins to Geo. Clark.

Mrs. Emily Shrewsbury sold her house and lot in McQuady, to Mr. J. M. O'Brien for \$1,000.

J. E. Waggoner bought the T. A. Gray farm of 130 acres from James Harrison. Price not given. Both say they were "burnt." Mr. Harrison will move to Pewee Valley.

J. W. Cannon sold to Beard Brothers recently 23 head of 3 year old steers for \$2,750. Mr. Cannon has 17 white face Hereford steers for sale. He says they are beauties.

Much soil fertility is lost every winter by soil washing or erosion. Put a stop to it by keeping the hilly lands in sod, planting a cover crop, under-drainage, filling the gullies with brush, etc.

Harry Norton shipped a load of cattle and sheep from Webster Monday and went to the State Fair.

Frank May has sold his farm of 60 acres to Frank Ruppert for \$6,000. Vic Pile bought 100 acres from John Kennedy for \$8,500. These farms lay (Continued on Page 5)

MAGIC OF CHEMISTRY

It is not often that the annual meeting of a learned society marks an epoch in the life of a great Nation. Such events usually excite no one except the little circle of savants in charge. Yet the annual meeting of the American Chemical Society at Philadelphia this week should be a milestone in our development. The chemists have come back from war and are planning for the future.

Before the war Americans did not take their chemists seriously. The delvers in the laboratory had seldom touched popular imagination. They were good plodding chaps, of course. So people thought. But the career of a builder of bridges or of a mining engineer had more appeal. No one seemed to care very much of the pursuit of chemistry, like the making of dictionaries, was left to foreigners. Then came the blockade. German dyes and German drugs were cut off. Fabrics on returning from the laundry showed scant traces of the colors they had been when new. Physicians were hard put to it to treat their patients when the left-over bottles and boxes were sold out at the drug stores. We began to see that chemistry mattered.

The war was a chemical affair. The gas department of the Army snapped up all the chemists it could find. They stood the test and contributed largely toward winning the war. Our gas was "good" as the military men say. It was a terror to the enemy.

The chemist has as much or more to say to a people at peace as he has had during the past few years. He can make the soil work overtime. He can help his hungry fellow man to new sources of food supply. He can find out what makes us sick and help us to get well. He can clothe us in bright colors that do not run. In a factory he is quite as much of a modern necessity as an employment manager.

And the chemists have only begun their application of science to life. They are custodians of the magic of the future.—Boston Globe.

THE CROP.
 A gardner stood and viewed the land. A few square feet in his backyard. Where weeds were boldly in command, And streaks of sunshine struggled hard.
 A trophy small he held aloft, His mood was plainly not serene, As he inquired in accents soft, "What can you do with one string bean?"
 "This pod alone reminder brings Of hopes that were so fair of yore. My cabbage and beets and things I go on buying at the store. What hours I squandered on this task Where only memories are green! For, candidly I want to ask, What can you do with one string bean?"—Washington Star.

TRUTONA'S POPULARITY EVER ON THE INCREASE

LODGE WORKER, WIDELY-KNOWN, LAUDS TRUTONA

"Seems to Have Made a New Woman Of Me," Mrs. Iseman Asserts.

Paducah, Ky., Sept. 9.—Practically everyone in Paducah knows, likes and esteems Mrs. A. L. Iseman, 402 Washington street. She has been prominent in local lodge circles for many years, having held several high offices in the Paducah W. O. W. Circle.

"I must admit that I was nearly ready to 'hand in my checks' when I began using Trutona," Mrs. Iseman said recently in discussing her experience with the perfect tonic. "I had been suffering from a complication of troubles for several years. My bladder and kidneys were out of shape and my nerves were unstrung. I had scarcely any appetite and didn't sleep well at night."

"I do not like publicity and consequently am not enthusiastic over having my name used, but I feel that I owe this statement to the general public and this time I am willing to give it. I am not nervous anymore and my bladder and kidney troubles have vanished. I have a splendid appetite, too, and sleep well at night now. Trutona is the finest medicine for liver trouble I've ever found. My complexion has cleared up and I've gained in weight during the past two months. Trutona seems to have made a new woman of me."

SURPASSED EFFORTS OF OTHERS, SHE, SAYS

Henderson, Ky., Sept. 9.—"Trutona has done me more good than any other medicine I've ever taken," Mrs. J. M. Mudgrove, 1500 Clay street, Henderson said recently.

"Trutona has done me a world of good. I eat most anything now without suffering bad after effects and the rheumatic pains have been relieved. I'm glad to recommend Trutona."

POPULAR PATROLMAN

Duty Obviously Prompted Police Officer's
Glowing Tribute to Trutona

HIGH VALUATION NOW PLACED ON HIS INVESTMENT

Business Man Declares He
Wouldn't Take \$500 For
Relief Trutona Gave.

Louisville, Ky., Sept. 9.—"I believe I would have died, had it not been for Trutona, but now I feel good all over—just like a boy again and I wouldn't take \$500 for my relief."

What could be more convincing than this sincere statement of W. B. Mattingly, a well-known and highly respected business man of Jefferson town, near here.

"For the past 25 years," Mr. Mattingly continued, "I've suffered from kidney trouble, nervousness and catarrh of the stomach. Weak kidneys compelled me to get up often during the night and I often experienced severe pains in my chest, back and stomach. The little food I ate didn't agree with me and I was usually constipated."

"I can't discern the least sign of my former nervousness, since I've taken Trutona. My bowels are acting regularly, too. It just seems that everything I eat agrees with me. The pains in my back and chest and stomach have vanished and I'm not annoyed by my kidneys at night anymore. Trutona is a real medicine and I'm pleased to recommend and commend it to the public."

SEES HOPE FOR OTHERS

Dunnary Urges Everyone,
Troubled As He Was, To
Take Perfect Tonic.

Bowling Green, Ky., Sept. 9.—Sam C. Dunnary, 640 Tenth street, Bowling Green, has been a popular and efficient member of the local police force for many years. His devotion to duty together with a pleasant personality has won for him the admiration and respect of hundreds of friends. This genial officer of the peace has but one regret in dwelling reminiscently upon his years of service and that—poor health. How he finally overcame this difficulty, Mr. Dunnary tells in the following interesting statement:

"It seemed that every time I ate I had to be annoyed by an uneasy heavy feeling in my stomach, followed by a shortness of breath. I was usually constipated. Supper seemed to hurt me the worst and caused me to experience many a sleepless night."

"Trutona quickly relieved the heavy feeling in my stomach and shortness of breath that formerly followed my meals. The constipation also, has been relieved to a great extent. In fact, I sleep better, eat better—eat anything I want, too—without bad after effects, since taking Trutona. It is a tonic of real merit for rebuilding weakened and run-down systems and I'm trying to get everyone, suffering as I was, to take it."

TRUTONA

THE PERFECT TONIC

Is now being introduced and explained in Cloverport at Wedding's Drug Store. Trutona is sold in Hardinsburg at F. S. Kincheloe's Drug Store and in Irvington at Park's Pharmacy.

In Re Application for State Aid.

On motion of Squire Heron and seconded by Squire Keenan the following resolutions were passed by the Breckinridge Fiscal Court.

Be it Resolved that the public interest demands the improvement and construction of the following road for about 7 miles beginning at Hardinsburg, and running to Garfield, same being a portion of the Inter-County seat road connecting the most direct route and practical route and it is the sense of this court that said road be improved under State Aid and State Supervision during 1920. This County has available for its share of the cost of construction of this road, \$8,000.00 and hereby makes application for such amount of State Aid, as it may be entitled to under the total assessed valuation as certified to the State Tax Commission on

1919 said valuation being \$6,740,920. It appears that the Fiscal Court of Breckinridge county had for the purpose of constructing roads, and bridges in 1919, exclusive of the fund received from the state as Breckinridge county's State aid, apportionment the sum of \$16,000.00. That the county had in addition to the above mentioned amount the sum of \$3,500.00 from the poll tax, all of which was devoted to the improvements of road and bridges and that the sum of

was secured from private donations for road purposes during the year 1919, all of which was paid into the county Treasury.

Therefore, it is ordered that the Fiscal court of Breckinridge county petition the State of Kentucky, and the state commissioner of Public Roads for such portion of the state road fund as it may be entitled to under the lawful basis of apportionment in consideration of its total assessed valuation, of \$5,740,920 and the sum hereby set aside for State Aid construction amounting to \$8,000.00.

It is further ordered that a copy of these resolutions and a copy of this court order be certified to the commissioner of Public Roads for his approval. The vote being taken resulted in the affirmative unanimously.

On motion duly made, seconded and carried it is ordered that Judge S. B. Payne, and County Attorney, W. S. Ball, be and they are hereby appointed as a committee to secure the services of a capable and competent man to oversee, in conjunction with the man designated by the State in the grading and construction of the earth work, of the Hardinsburg & Garfield Pike, and that they act immediately in such matter.

On motion duly made, seconded and carried it is ordered that Court adjourn till nine o'clock tomorrow.

Must Mark Weight

on Wrapped Meat

Wrapped meats inclosed in paper or other material, including hams and bacon, coming within the jurisdiction of the Federal food and drug act, must be labeled to show the net weight of each package, by the provisions of an amendment to that law incorporated in the Agricultural appropriation act for the current year. The food and drugs act requires that the quantity of food in package from coming within its jurisdiction must be plainly and conspicuously marked on the outside of the package in terms of weight, measure, or numerical count. Wrapped hams and bacon previously were held not to be food in package form within the meaning of the act, since they are not of uniform size and are sold by the pound by actual weight and not by a fixed price for each package as are most foods in package form.

Congress now has specified definitely that from the date of the passage of the amendment, July 24, 1919, a statement of the net weight will be required on all wrapped meats, including lams and bacon, coming within the jurisdiction of the Federal food and drugs act.

Suffered With Rheumatism, Catarrh and Stomach Trouble

"I think Number 40 For The Blood as a blood purifier has no equal. When I began to take Number 40, I was in very poor health, as I had Rheumatism, Catarrh, Stomach Trouble, Lead Poisoning, and an Itch that I had tried almost every known remedy to relieve. I have taken six bottles of 'Number 40' and am on a fast road to recovery. I owe my life to it, as I used to weigh 127 pounds and now weigh 148 my usual weight. I could write more but this should be enough to convince the most skeptical, and you are at liberty to use this letter anyway you desire." Geo. Klinker, Lima, Ohio.

The ingredients in "Number 40 For The Blood" are set down in the U. S. Dispensatory and other reliable medical books as follows: "Employed in diseases of the glandular system, in blood poison, constipation, stomach and liver troubles, chronic rheumatism, catarrh, sores, ulcers, skin eruptions, mercurial and lead poisoning. Under its use nodes, tumors, scrofulous swellings that have withstood all other treatment disappear as if by magic."

Carey LASTILE

A roofing that adds the virtues of asphalt to the virtues of slate

SLATE is not affected by exposure. Asphalt is long wearing and water-proof. In Carey Lastile Roofing we combine these two materials and thus produce a sheet having the utmost durability and water-proof qualities.

The upper side of Lastile Roofing is composed of a layer of natural red or green crushed slate. This not only makes a very beautiful roof but it takes the wear. Underneath this layer of crushed slate is a layer of asphalt gum. The slate is embedded in this asphalt permanently. Underneath this layer of asphalt is a heavy sheet of the best grade of woolfelt, thoroughly saturated and water-proofed with asphalt. This sheet alone provides far more resistance than most roofs even without the extra layer of asphalt and the crushed slate.

Carey Lastile Roofing wears year after year, presents a most attractive appearance, requires no paint at any time and is so spark-proof that it is endorsed by the Underwriters. The first cost is but little more than that of ordinary roofings and it costs no more to apply.

It is adapted for use on residences, factories, barns, garages and is frequently used as a siding in addition to being used as a roofing. Come and see it or write us for a sample.
